## Pl. use these risk factors for advt.

Scheme Classification and Objective: FIIBA is an open end income scheme with an objective to provide investors regular income under the Dividend Plan and Capital appreciation under the Growth Plan. FIGSF is an open end dedicated Gilts scheme with the objective to generate credit risk-free return through investments in sovereign securities issued by the Central Government and/or State Government and/or any security unconditionally guaranteed by the Central Government and/or State Government for repayment of Principal and Interest. FIMIP is an open end income scheme (with no assured returns) with an objective to provide regular income from a portfolio that is invested in predominantly high quality fixed income securities with a maximum exposure of 20% to equities. Risk Factor: Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
