It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially (subject to and within the maximum limits prescribed above) depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. The asset allocation pattern described above may alter from time to time on a short-term basis on defensive considerations (As per Para 1.14.1.2.b of SEBI Master circular on Mutual Funds dated June 27, 2024), keeping in view market conditions, market opportunities, applicable regulations and political and economic factors (i.e., for reasons other than downgrade in rating) and would, in such cases, shall be rebalanced within 7 days from date of deviation. However, if the asset allocation pattern is to be altered for other reasons, as this is a fundamental attribute, the procedure outlined in the paragraph on fundamental attributes below, shall be followed.

NOTE: The investment under Direct Plans shall have the same portfolio as that of the plan/option under which it is introduced, and hence the same investment objectives and investment pattern as that of the existing respective Scheme/Scheme Portfolio.

	<p>Portfolio Rebalancing</p> <p>In the event of deviations the portfolio will be rebalanced as per Para 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024. In the event of deviation from mandated asset allocation mentioned in the Scheme Information Document (SID) due to passive breaches (occurrence of instances not arising out of omission and commission of AMCs), rebalancing period shall be 30 Business Days. Where the portfolio is not rebalanced within 30 Business Days justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment committee shall then decide on the course of action. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.</p> <p>All the reporting and disclosure requirements as mentioned in Para 2.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024 shall be complied with. This includes disclosure to investors in case the AUM of deviated portfolio is more than 10% of the AUM of main portfolio of scheme.</p> <p>For prudential limits on portfolio concentration, please refer to Scheme Information Document.</p>
INVESTMENT STRATEGY	<p>The equity portion follows a blend of value and growth style of investing, and will invest in diversified portfolio of stocks with predominant exposure to Large caps. The fund will follow a bottom-up approach to stock-picking and choose companies across sectors.</p> <p>The debt portion of the scheme will be invested in high quality fixed income instruments.</p>
RISK PROFILE OF THE SCHEME	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <ul style="list-style-type: none"> • Different types of securities in which the scheme would invest carry different levels and types of risks. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. • Trading volumes, settlement periods and transfer procedures may restrict liquidity of investments in equity and equity related securities. • Investments in debt instruments are subject to various risks such as credit/default risk, interest rate risk, reinvestment risk, liquidity risk etc. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated. • Credit risk: This refers to the risk that an issuer of a fixed income security may default (i.e. will be unable to make timely principal and interest payments on the security). • Interest rate risk: This risk results from changes in demand and supply for money and other macroeconomic factors and creates price changes in the value of debt instruments. <p>Consequently, the NAV of the scheme may be subject to fluctuation. Prices of long term securities generally fluctuate more in response to interest rate changes than do short-term securities. This may expose the schemes to possible capital erosion.</p>

	<ul style="list-style-type: none"> • Liquidity Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). Liquidity risk is today characteristic of the Indian fixed income market. • Market risk: This risk arises due to price volatility due to such factors as interest sensitivity, market perception or the credit worthiness of the issuer and general market liquidity, change in interest rate expectations and liquidity flows. Market risk is a risk which is inherent to investments in securities. This may expose the schemes to possible capital erosion. • Reinvestment risk: This risk refers to the interest rate levels at which cash flows received for the securities in the Scheme is reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. • Different types of Securitised Debts in which the scheme would invest carry different levels and types of risks. Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the scheme. • The tax benefits available under the scheme are as available under the present taxation laws and are available only to certain specified categories of investors and that is subject to fulfilment of the relevant conditions. In view of the individual nature of tax consequences, each Investor/ Unit holder is advised to consult his/her own professional tax advisor. The Trustee, AMC, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up before the completion of the lock-in period. Investors are requested to review the prospectus carefully and obtain expert professional advice with regard to specific legal, tax and financial implications of the investment/participation in the scheme. <p>There is no assurance or guarantee that the objectives of the scheme will be achieved. The past performance of the mutual funds managed by the Franklin Templeton Group and its affiliates is not necessarily indicative of future performance of the scheme.</p> <p>For details on risk factors and risk mitigation measures, please refer SID.</p>
