* Includes Securitised Debt upto 40%																										
#including investments in Foreign Securities as may be permitted by SEBI/RBI upto the limit specified for applicable asset class in the asset allocation table above.																										
The fund managers will follow an active investment strategy taking defensive/aggressive postures depending on opportunities available at various points in time.																										
The scheme may enter into derivatives in line with the guidelines prescribed by SEBI from time to time. The scheme may take exposure in derivatives up to a maximum of 50% of its AUM. The exposure limit per scrip/instrument shall be to the extent permitted by the SEBI Regulation for the time being in force. These limits will be reviewed by the AMC from time to time. Trading in derivatives by the scheme shall be restricted to hedging and portfolio balancing purposes.																										
It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. The asset allocation pattern described above may alter from time to time on a short-term basis on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors and would, in such cases, shall be rebalanced within 30 days from date of deviation. However, if the asset allocation pattern is to be altered for other reasons, as this is a fundamental attribute, the procedure outlined in the paragraph on fundamental attributes below, shall be followed.
