*** These instruments have interest rate reset with a floor and a cap on the interest rate. Prior to May 17, 2021, independent valuation agencies typically valued these instruments at the nearest interest rate reset date and accordingly the Macaulay Duration of the fund was computed. Effective May 17, 2021, the valuation agencies, changed the methodology for valuation of such instruments and are now valuing these bonds at maturity date. Accordingly, effective May 17, 2021, the Macaulay Duration of these securities measures the interest rate risk upto the maturity date which is reflected in Macaulay Duration of the fund. In the Maturity profile/ cash flow projections, we have always assumed that the instruments with a floor and a cap on interest rate will continue till maturity date.
