A. RISK FACTORS

STANDARD RISK FACTORS

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
- Past performance of the sponsors / the asset management company / mutual fund does not indicate or guarantee the future performance of the scheme of the mutual fund.
- There is no assurance or guarantee that the objective of the mutual fund will be achieved.
- Franklin India Multi-Asset Solution Fund is only the name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.1 lakh made by it towards setting up the Mutual Fund.
- Investors in the Scheme are not being offered any guaranteed / assured returns.
- There is no guarantee or assurance on the frequency or quantum of dividends (which shall be at the discretion of the AMC/Trustee and also depend on the availability of adequate distributable surplus) although there is every intention to declare dividends in Dividend Plan.

SCHEME SPECIFIC RISK FACTORS

1. The performance of the scheme may be affected by the corporate performance, macro-economic factors, change in Government policies, general levels of interest rates and risk associated with trading volumes, liquidity and settlement systems in equity and debt markets.
2. The Scheme proposes to invest primarily in units of mutual funds. Hence, movements in the Net Asset Value (NAV) of the underlying funds would impact the performance of FIMAS.
3. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the scheme's investments on Gold Exchange Traded Fund schemes (Gold ETFs).
4. The performance of the scheme may be affected by the corporate performance, macro-economic factors, changes in Government policies, general levels of interest rates and risk associated with trading volumes, liquidity and settlement systems in the securities markets.
5. Investments in equity schemes will have all the risks associated with the equity schemes including liquidity risk.
6. Investments in fixed income schemes will have all the risks associated with the income scheme including interest risk, reinvestment risk, credit risk, market risk, liquidity risk etc.
7. Investments in Gold ETFs will have all the risks associated with Gold ETF including liquidity risk.
8. To the extent the underlying fixed income and equity schemes invest in overseas financial assets, there may be risk associated with currency movements, restriction on repatriation, transaction procedures in overseas markets as well as country related risk.
9. To the extent the underlying schemes engage in security lending, FIMAS will be subject to risks related to fluctuations in collateral value/settlement, liquidity and counter party related risk.
10. To the extent the underlying schemes engage in short selling, FIMAS will be subject to risks related to fluctuations in market price, settlement and liquidity risks.

12. The Trustee at its sole discretion reserves the right to withdraw sale and/or repurchase/ redemption or switching of the Units in the Scheme temporarily or indefinitely. For details refer the Section '**Suspension of sale of units**' and '**Suspension of redemption of units**'.
13. Any change in the investment policies or fundamental attributes of the underlying fund will affect the performance of FIMAS.
14. Any change in the ability to purchase/redeem units in the underlying scheme on account of suspension of sale of units, suspension of redemption of units, segregation of portfolio, winding up, etc may affect FIDAAF's ability to invest and liquidate funds.
15. The Investors shall bear the recurring expenses of the Scheme in addition to the expenses (recurring expenses and load) of the underlying schemes. The load and the recurring expenses charged by the underlying fund may change from time to time. Therefore, the returns of the Scheme may be materially impacted or may, at times, be lower than the returns that the investors directly investing in the underlying fund could obtain.
16. The investors may refer to the Scheme Information Documents and the related Addenda of the Underlying Funds for the Scheme Specific Risk Factors and Special Considerations of the respective schemes.

Liquidity Risk

17. Risk will be monitored in terms of the number of days it takes to liquidate the Units of the underlying schemes in the portfolio. Efforts would be made to keep the average liquidation period under prudent limits prescribed internally.

RISK MITIGATION FACTORS

As the scheme invests in mutual fund schemes, there are no specific risk mitigating factors.

B. REQUIREMENT OF MINIMUM NUMBER OF INVESTORS

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall be complied within each subsequent calendar quarter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Franklin India Short Term Income Plan (FISTIP)

(a) Name & Type of the Scheme

Franklin India Short Term Income Plan, an open ended short term debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 1 year to 3 years

The Macaulay duration is defined as the weighted average time to full recovery of principal and interest payments of a bond i.e. the weighted average maturity of cash flows. The weight of each cash flow is determined by dividing the present value of the cash flow by the price of the bond.

(b) Investment Objectives & Policies

To provide stable returns by investing in fixed income securities.

(c) Asset Allocation Pattern

Under normal market circumstances the investment range would be as follows:

Type of Investment	Risk Profile	Allocation % of corpus
Debentures (investment grade, privately placed, etc.), government securities and other fixed income instruments*	Medium to Low	Upto 100%
Money market instruments and securities held under reverse repos (including debentures with maturity less than 1 year)	Low	Upto 100%

* If the scheme decides to invest in securitised debt, it is the intention of the Fund Manager that such investments will not exceed 30% of the corpus of the scheme.

The scheme may enter into derivatives in line with the guidelines prescribed by SEBI from time to time. The scheme may take exposure in derivatives up to a maximum of 50% of its AUM. The exposure limit per scrip/instrument shall be to the extent permitted by the SEBI Regulation for the time being in force. These limits will be reviewed by the AMC from time to time.

The fund manager will endeavour to have the asset allocation pattern and the maturity profile of the portfolio with a view to outperform the Crisil Short Term Bond Fund Index.

The above allocation pattern would be applicable under normal circumstances and generally the allocation would not be allowed to raise beyond these levels unless the markets are extremely turbulent and there is a need to protect the unitholders' interest by reallocating the portfolio. In other words, the scheme would be maintaining the above ratio diligently which the investor can assume would be the steady state allocation strategy.

It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. The asset allocation pattern described above may alter from time to time on a short-term basis on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. However, if the asset allocation pattern is to be altered for other reasons, as this is a fundamental attribute, the procedure outlined in the paragraph on fundamental attributes below, shall be followed.

(d) Investment Strategy:

Investment in derivatives including imperfect hedging using Interest Rate Futures shall be in line with the guidelines prescribed by SEBI from time to time. The exposure limit per scrip/instrument shall be to the extent permitted by the SEBI Regulation for the time being in force. These limits will be reviewed by the AMC from time to time.
3. Repos in corporate debt securities
4. Short Selling
5. Securities Lending - A maximum of 40% of net assets may be deployed in securities lending and the maximum single party exposure may be restricted to 10% of net assets outstanding at any point of time.

The fund managers will follow an active investment strategy taking defensive/aggressive postures depending on opportunities available at various points in time.

It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. The asset allocation pattern described above may alter from time to time on a short-term basis, on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors (i.e., for reasons other than downgrade in rating) and would, in such cases, shall be rebalanced within 30 days from date of deviation. However, if the asset allocation pattern is to be altered for other reasons, as this is a fundamental attribute, the procedure outlined in the paragraph on fundamental attributes below, shall be followed.

The Macaulay duration of the portfolio shall be between 3 years – 4 years. However, the fund manager, in the interest of investors, may reduce the portfolio duration upto 1 year, in case he has a view on interest rate movements in light of anticipated adverse situation. Portfolio Macaulay duration under anticipated adverse situation shall be 1 year to 4 years.

(d) Investment Strategy:

Focuses on emerging opportunities in the fixed market and has the flexibility to take concentrated exposure to a particular security class based on macro/micro analysis.

The general maturity/duration range for the portfolio in relation to the market based on its interest rate outlook will be arrived at after a rigorous and close monitoring of various macro variables. The shifts within this range are then determined by short term cyclical trends in the economy. We will manage interest rate risk across different asset class and duration buckets, in order to optimize risk-adjusted returns. All the investment options will be thoroughly analyzed to ensure that credit risk is kept at an optimal level. Any major shifts in portfolio strategy would be based on long-term trends, as opposed to short-term aberrations in interest rates.

In case of securitised debt, we look to diversify the PTC exposure for ABS across different asset classes and single loan PTCs. For the ABS pools, we look at factors such as – historical performances of similar pools and credit collateral utilization. Pool performance indicators include ageing profiles, collection efficiency ratios and delinquency levels.

- (a) Units of domestic mutual fund schemes including Gold ETFs.
- (b) Domestic Commercial Paper (CP), Certificate of Deposits (CD), treasury bills, TREPs, Repo/Reverse Repo and other Money Market Instruments as may be permitted by SEBI / RBI from time to time.
- (c) Deposits with domestic banks and other bodies corporate as may be permitted by SEBI from time to time

Being a fund of funds scheme, as per the prevailing SEBI Regulations, investment in assets other than units of mutual fund schemes will be restricted to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions.

The securities mentioned above could be listed, unlisted, publicly offered, privately placed, secured, unsecured, rated or unrated and of varying maturity. The securities may be acquired through public offerings (IPOs), secondary market operations, private placement, rights offers or negotiated deals. The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by it as per the guidelines and regulations applicable to such transactions.

E. INVESTMENT STRATEGY

The investment strategy of the fund is to provide an asset allocation solution to the investors. The asset allocation will be dynamically managed across Equity, Debt, Gold and Money Market based on proprietary model. The fund proposes to primarily invest in our existing local equity, fixed income, liquid products and in domestic Gold ETFs. Allocation to the asset classes will be made based on a proprietary model which is a mix of quantitative and qualitative analysis and uses a combination of economic, valuation and momentum /sentiment factors.

The proprietary model uses strategic and tactical allocation. While strategic allocation determines long term allocation to different asset classes, tactical allocation uses a combination of economic, valuation and momentum/sentiment factors to determine the allocation towards a particular asset class/security.

How the model works?

The investment strategy of the fund is to provide an asset allocation solution to the investors.

Step 1- Determination of Strategic allocation:

Strategic allocation determines long term allocation to different asset classes viz. Equity, Debt, Gold and Money Market instruments.

Step 2 - Determination of Tactical allocation:

Tactical allocation is based on a combination of economic, valuation and momentum/sentiment factors. The tactical allocations to the asset classes/securities are guided by the specific states of different indicators under each of the factors. Depending on the state of these indicators, the weights assigned to the indicators are optimized.

Given below are indicators under each of the factors:

Economic Indicators	Valuation Indicators	Momentum/ Indicators	Sentiment
India OECD Composite Leading Indicators	Difference between Earnings Yield & Bond Yield	Dollar Vs Developed Currencies Index	
India Index of Industrial Production	P/E Ratio	Dollar Vs Asian Currencies Index	

The fund manager reserves the right to change the above mentioned indicators or use any other criteria to use suitable indicators in case any of the above factors are either not available or modified or becomes irrelevant.

Step 3 - Determination of Implementation allocation:

Implementation allocation towards a specific asset class and security thereunder is determined based on a combination of strategic and tactical allocation.

F. FUNDAMENTAL ATTRIBUTES

Please note that the following are the fundamental attributes of the scheme:

- **Type of scheme** – An open ended fund of fund scheme investing in funds which in turn invest in equity, debt, gold and cash

- **Liquidity provisions such as repurchase or redemption** – Please refer to the section ‘Redemption of Units’.
- **Aggregate fees and expenses charged to the scheme** - Please refer to the section ‘Fees and Expenses of the Scheme’.

- i a written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as a newspaper published in the language of the region where the head office of the mutual fund is situated; and
- ii the unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. BENCHMARK

The scheme has identified **CRISIL Hybrid 35+65 – Aggressive Index*** as the benchmark.

We believe that since the scheme invests in multiple asset classes and has the ability to dynamically move between them, ideally the appropriate benchmark is equal weighted composite benchmark representing each of the asset classes it intends to invest in. However, globally the other benchmarks that such funds use are the balance fund indices. In view of the same, the Scheme proposes to use CRISIL Hybrid 35+65 – Aggressive Index as the benchmark.

The AMC / Trustee reserve the right to change / modify the benchmark by issuing an addendum.

*CRISIL Balanced Fund - Aggressive Index has been renamed as CRISIL Hybrid 35+65 - Aggressive Index w.e.f. February 01, 2018

PORTFOLIO TURNOVER

Portfolio turnover is defined as lesser of purchases and sales as a percentage of the average corpus of the Scheme during a specified period of time. The endeavour will be to minimise the portfolio turnover subject to exigencies and needs of the scheme. Generally, for the investments in fund of funds scheme, the turnover will be confined to the subscriptions and redemptions (including inter-fund switches, if any) in the underlying fund(s). For the investments in other securities, the Portfolio turnover in the scheme will be a function of market opportunities. The economic environment changes on a continuous basis and exposes debt portfolio to systematic as well as non-systematic risk. The scheme is an open-ended scheme. It is expected that there would be a number of subscriptions and repurchases on a daily basis. Consequently it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. The AMC will endeavour to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for securities held in the portfolio rather than an indication of change in AMC's view on a security etc. However, the AMC will take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets.

Portfolio turnover ratio – Not applicable

- **Dividend Plan*** (with Reinvestment and Payout Facility)
- **Growth Plan - Direct**
- **Dividend Plan – Direct** (with Reinvestment and Payout Facility).

All applications directly received by Franklin Templeton Asset Management (India) Pvt. Ltd., the AMC, at any Official Point of Acceptance of Transactions i.e. applications which are not routed through any AMFI registered mutual fund distributor, shall be treated as investments made under the **Direct route and the Units shall be allotted in Direct.**

In cases where the distributor's ARN or an existing Account Number is mentioned on the application but the investor has clearly and unambiguously specified that the subscription is under 'Direct', the application will be processed as Direct.

In cases where the distributor's ARN or 'Direct' is not mentioned on the application, the same will be processed as Direct (i.e. Direct Plan shall be the default plan).

Growth Plan / Growth Plan - Direct

Under the Growth Plan / Growth Plan – Direct, the returns to investors will be available in the form of capital appreciation. There will be no dividend declaration under this option. Instead the growth in NAV will reflect the appreciation of the value of investment.

Dividend Plan / Dividend Plan - Direct

Under the Dividend Plan / Dividend Plan - Direct, it is proposed to distribute the returns to the investors in the form of dividends out of distributable surplus. The AMC/Trustee may, at their discretion, approve the distribution of dividends out of distributable surplus to unit holders in the Dividend Plan / Dividend Plan – Direct whose names appear in the Register of Unit holders on the record date. It is mandatory for all investors (including joint holders, NRIs, POA holders and guardians in the case of minors) to furnish such documents and information as may be required to comply with the Know Your Customers (KYC) policies under the AML Laws. Applications without such documents and information may be rejected.

In terms of SEBI circulars dated April 27, 2007, April 03, 2008 and June 30, 2008 read with SEBI letter dated June 25, 2007, **Permanent Account Number (PAN) would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction**, except (a) investors residing in the state of Sikkim; (b) Central Government, State Government, and the officials appointed by the courts e.g. Official liquidator, Court receiver etc. (under the category of Government) and (c) investors participating only in micro-pension. SEBI, in its letter dated July 24, 2012 has conveyed that investments in mutual fund schemes [including investments through Systematic Investment Plan (SIP)] of up to Rs.50,000/- per year per investor shall be exempted from the requirement of PAN.

Accordingly, where the aggregate of lump sum investment (fresh purchase and additional purchase) and SIP instalments by an investor in a financial year i.e., April to March does not exceed Rs.50,000/- (referred to as "Micro investment"), it shall be exempt from the requirement of PAN.

However, a duly verified/attested copy of such document(s) as may be prescribed by the AMC/Trustee from time to time, needs to be submitted as the proof of identification in lieu of PAN Card copy.

This exemption will be available only to Micro investment made by individuals being Indian citizens (including NRIs, joint holders, minors acting through guardian and sole proprietary firms). PIOs, HUFs, QFIs and other categories of investors will not be eligible for this exemption.

For the purpose of identifying Micro investment, applications shall be aggregated at the investor level (same sole holder/joint holders in the same sequence) and such aggregation shall be done irrespective of the number of folios / accounts under which the investor is investing and irrespective of source of funds, mode, location and time of application and payment.

Thus, submission of PAN is mandatory for all existing as well as prospective investors (including all joint

applicants/holders, guardians in case of minors, POA holders and NRIs but except for the categories mentioned above) for transacting with mutual funds from this date. Investors are required to register their PAN with the Mutual Fund by providing the PAN card copy. E-PAN issued by CBDT can also be provided by FPI. **All investments without PAN (for all holders, including Guardians and POA holders) are liable to be rejected.**

All financial transactions with Franklin Templeton Mutual Fund need to comply with the PAN and KYC requirements as stated above, failing which the applications are liable to be rejected. It is clarified that all categories of investors seeking exemption from PAN still need to complete the KYC requirements stipulated by the AMC/Trustee from time to time, irrespective the amount of investment.

Minimum Application Amount

Fresh purchase by new applicant: Rs.5,000/- and any amount thereafter in multiple of Re.1/-. Additional purchases by existing unitholders: Rs.1,000 and any amount thereafter in multiple of Re.1/-. There is no upper limit.

The Trustee reserves the right to vary these limits from time to time, in the interest of investors.

Sale Price for ongoing purchases

For on-going subscriptions, sale price is calculated based on the "Applicable NAV". In accordance with the SEBI guidelines, no entry load will be charged by the Mutual Fund.

All the applications will be processed at the Applicable NAV, based on the date and time of their receipt at the ISC / Collection Centre, as evidenced by the electronic date / time stamp affixed at the ISC or Collection Centre.

In simple words, Sale Price = Applicable NAV.

Transaction Charges

The AMC/Mutual Fund shall deduct Transaction Charges on purchase/subscription applications received from investors that are routed through a distributor/agent/broker as follows, provided the distributor/agent/broker has opted to receive the transaction charges. The distributors have the option to either opt in or opt out of levying transaction charge based on type of the product.

(i) First time investor in mutual funds:

Transaction Charge of Rs.150/- on purchase/subscription application of Rs.10,000 and above shall be deducted from the subscription amount and paid to the distributor/agent/broker of the investor. Units will be allotted for the balance subscription amount (net of the transaction charge deducted).

(ii) Investors other than first time investor in mutual funds:

Transaction Charge of Rs.100/- per purchase/subscription application of Rs.10,000 and above shall be deducted from the subscription amount and paid to the distributor/agent/broker of the investor. Units will be allotted for the balance subscription amount (net of the transaction charge deducted).

(iii) In case of investments through Systematic Investment Plan (SIP), the Transaction Charge shall be deducted only if the total commitment through SIP (i.e. amount per SIP instalment x No. of SIP instalments) amounts to Rs.10,000/- and above. The Transaction Charge shall be deducted in 3 or 4 instalments, as may be decided by the AMC from time to time.

(iv) The Transaction Charges shall not be deducted for:

- (a) purchase/subscription applications for an amount less than Rs.10,000/-;
- (b) transactions other than purchases/subscriptions relating to new inflows such as switches, redemption, Systematic Transaction Plan, Dividend Transfer Plan etc.;
- (c) direct applications received by the AMC i.e. applications received at any Official Point of Acceptance of Transaction of Franklin Templeton Mutual Fund that are not routed through any distributor/agent/broker; and
- (d) transactions routed through stock exchange platform (not applicable for ARN holders who have 'opted-in' for levy of transaction charges in respect of mutual fund transactions of their clients routed through stock exchange platforms)..

The statement of account shall clearly state that the net investment as gross subscription less transaction

charge and give the number of units allotted against the net investment. The upfront commission to distributors shall continue to be paid by the investor directly to the distributor by a separate cheque based on his assessment of various factors including the service rendered by the distributor.

*Received at the Official Points of Acceptance of Transactions of Franklin Templeton Mutual Fund

Temporary change in Cut-off timing: On account of Covid-19 pandemic and taking into account the impact of the revised trading hours for various markets as per various RBI Press Releases, SEBI has communicated to reduce the cut-off timing for subscriptions to 1 p.m. for a temporary period. Any change in the SEBI guidelines on cut-off timing shall be informed to the investors.

Note:

The applicability of Net Asset Value (NAV) for on-going subscriptions in the schemes will be as follows:

In case where more than one application is received for purchase/subscription (fresh or additional) into a scheme of the Mutual Fund for an aggregate investment amount equal to or more than Rs.2 lacs on any Business Day across all plans/options of the relevant scheme, then such applications shall be aggregated at the investor level (same holders/joint holders identified by their Permanent Account Numbers (PAN) in the same sequence).

Such aggregation shall be done irrespective of the number of folios under which the investor is investing and irrespective of source of funds, mode, location and time of application and payment.

Accordingly the applicable NAV for such applications shall be the closing NAV of the Business Day on

which the funds are available for utilisation before the cut off time (currently 3:00 p.m.) in case of each application.

In case funds are received on separate days and are available for utilisation on different Business Days before the cut off time, the applicable NAV shall be of the closing NAV of the Business day(s) on which the cleared funds are available for utilisation for the respective application.

It is clarified that switches and transactions under SIP, STP, DTP and stock exchange infrastructure will not be considered for aggregation of applications. It is further clarified that in respect of schemes having more than one portfolio, the aggregation of application will be done at portfolio level.

Allotment of Units / Refund

Full allotment will be made to all valid applications received during continuous offer period. Refund of subscription money will be made to applicants without any return, in case applications are invalid or are rejected. An Account Statement containing the number of Units allotted will be issued within 5 business days from the date of allotment.

The allotment of units is subject to realisation of the payment instrument. Units purchased can be redeemed (including switch-out) only after realisation of payment instruments. The Mutual Fund will reject any request for redemption (including switch-out) of units in respect of which the payment is not realised.

It is clarified that in case of switch, requests for redemption/switch-out from destination scheme for the units switched shall be accepted and/or processed only if the payment in respect of those units is received from the source scheme to destination scheme.

The Trustee is entitled, in its sole and absolute discretion, to reject any Application. Further, the AMC/ Trustee reserves the right to reject any application post allotment or processing, if subsequently found invalid, contravention of any law or provisions of this Scheme Information Document. In this case, AMC will reverse such invalid allotments in their records and communicate to investors.

How to Redeem Units

In order to redeem units, investors must submit a redemption request by filling-up the pre-printed forms and submit / mail the same to any Investor Service Centre (ISC) / Collection Centre. All redemption request forms must contain the investor's Folio / Account Number and be duly signed.

Redemption requests by telephone, telegram, fax or other means or that lack valid signatures may not be accepted.

The Fund, however, may limit the right to make redemptions. See "Suspension of redemption of units" below.

Redemption Price

A valid redemption request received on any Business Day will be processed at the "Applicable NAV", subject to applicable load.

All the applications will be processed at the Applicable NAV, subject to applicable load, based on the date and time of their receipt at the ISC / Collection Centre, as evidenced by the electronic date / time stamp affixed at the ISC or Collection Centre.

The repurchase / exit load shall be charged as a percentage of Net Assets Value (NAV) i.e. applicable load as a percentage of NAV will be deducted from the NAV to calculate repurchase price.

To further elaborate, the redemption price is calculated by multiplying the "Applicable NAV for Redemption" by (1 – Exit Load). The redemption price will be calculated to four decimals using standard rounding criteria. For example, if the "Applicable NAV for Redemption" (rounded) is Rs.12.3269 and the exit load applied is 0.5%, the redemption price will be calculated as follows:

Redemption Price	=	Applicable NAV for Redemption * (1- Exit Load)
	=	12.3269 * (1-0.005)

=	Rs.12.26526550
=	Rounded off to Rs.12.2653

CUT OFF TIMING FOR REDEMPTIONS

Pursuant to SEBI guidelines, the cut off timings and the applicability of Net Asset Value of the scheme is under:

In respect of valid applications received up to 3:00 p.m. by the Mutual Fund, same day's closing NAV shall be applicable.

In respect of valid applications received after 3:00 p.m. by the Mutual Fund, the closing NAV of the next business day shall be applicable.

Temporary change in Cut-off timing: On account of Covide-19 pandemic and taking into account the impact of the revised trading hours for various markets as per various RBI Press Releases, SEBI has communicated to reduce the cut-off timing for redemption to 1 p.m. for a temporary period. Any change in the SEBI guidelines on cut-off timing shall be informed to the investors.

Minimum redemption amount

Rs.1,000 and any amount in multiple of Re. 1/- thereafter or 'All Units' if the account balance is less than Rs.1,000/-.

Since the redemption request for units held in dematerialized mode can be given only in 'number of units' with Depository Participants or on Stock exchange Platform, the provision pertaining to 'Minimum redemption amount' shall not be applicable to such investors.

The Trustee reserves the right to vary these limits from time to time, in the interest of investors.

Unitholder may request the redemption of a certain specified Rupee amount or of a certain number of Units. If a redemption request is for both a specified Rupee amount and a specified number of Units, the specified number of Units will be considered the definitive request. In the case where a Rupee amount is specified or deemed to be specified for redemption, the number of Units redeemed will be the amount redeemed divided by the applicable NAV. Redemption requests will be honoured to the extent permitted by the credit balance in the Unitholder's account. The number of Units so redeemed will be subtracted from the Unitholder's account and a statement to this effect will be issued to the Unitholder. If the redemption request exceeds the Balance in the account then the account would be closed and balance sent to the investors. To pay the investor the redemption amount requested for (in Rupees), Franklin Templeton will redeem that many units as would give the investor the net redemption amount requested for, after deducting exit load as applicable from time to time.

Minimum balance to be maintained and Right to close an investor's account

The Mutual Fund may close out an investor's account whenever, due to redemptions, the value of the account falls below the minimum account balance of Rs.1,000/-, and the investor fails to purchase sufficient Units to bring the value of the Account up to the minimum amount or more, after written notice is sent by the Mutual Fund.

Suspension of sale of units

With the approval of the Boards of Directors of the Trustee and the Asset Management Company, the sale of Units may be suspended temporarily or indefinitely when any of the following conditions exist:

1. The equity / debt market stops functioning or trading is restricted.
2. Periods of extreme volatility in the equity / debt market, which, in the opinion of the Investment Manager, is prejudicial to the interest of the investors.
3. When there is a strike by the banking community or trading is restricted by RBI or other authority.
4. Period of extreme volatility in the equity / debt / money market, which in the opinion of the Board of Directors of AMC and Trustee is prejudicial to the interest of the scheme's investors.
5. As and when directed by the Government of India or RBI or SEBI to do so or conditions relating to natural calamity/external aggression/internal disturbances etc. arises, so as to cause volatile movements in the money or debt market, which in the opinion of the AMC, will be prejudicial to the

- interest of the unitholders, if further trading in the scheme is continued.
6. Break down in the information processing/communication systems affecting the valuation of investments/processing of sale/repurchase request.
 7. Natural calamity.
 8. SEBI, by order, so directs.
 9. Trustee views that increasing the Scheme's size further may prove detrimental to the existing/prospective Unitholders of the Scheme.
 10. Any other circumstances which in the opinion of the Board of Directors of AMC and Trustee is prejudicial to the interest of the existing/prospective investors.

Suspension of redemption of units

With the approval of the Boards of Directors of the Trustee and the Asset Management Company, the redemption of Units may be suspended temporarily when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:

- i. Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision, shall not be allowed.
- ii. Market failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.
- iii. Operational issues – when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems.
- iv. Based on any other guidance/ circular issued by SEBI from time to time.

Restriction on redemption may be imposed for a specified period of time not exceeding 10 working days in any 90 days period. The approval from the Boards of AMC / Trustee shall also be informed to SEBI in advance.

When restriction on redemption is imposed, the following procedure shall be applied:

- i. No redemption requests upto Rs. 2 lakh shall be subject to such restriction.
- ii. Where redemption requests are above Rs. 2 lakh, AMC shall redeem the first Rs. 2 lakh without such restriction and remaining part over and above Rs. 2 lakh shall be subject to such restriction.

Any Units which, by virtue of these limitations, are not redeemed on a particular Business Day will be carried forward for redemption on the next following Business Day in order of receipt. Redemptions carried forward will be made at the NAV in effect on the subsequent Business Day(s) on which the condition for redemption request is fulfilled. To the extent multiple redemptions are being satisfied in a single day under these circumstances, such payments will be made pro-rata based on the size of each redemption request. Under such circumstances, redemption cheques may be mailed out to investors within a reasonable period of time and will not be subject to the normal response time for redemption cheque mailing.

In case where more than one application is received for redemption in a scheme for an aggregate redemption amount equal to or more than Rs.2 lakhs on any Business Day across all plans/options of the relevant scheme, then such applications shall be aggregated at the investor level (same holders/joint holders identified by their Permanent Account Numbers (PAN) in the same sequence).

Such aggregation shall be done irrespective of the number of folios under which the investor is redeeming and irrespective of mode, location and time of application.

SYSTEMATIC INVESTMENT PLAN (SIP)

Mutual Fund Investors can benefit by investing specified rupee amounts periodically for a continuous period. This concept is called Rupee Cost Averaging. This savings program allows investors to save a fixed amount of rupees every month by purchasing additional units of the Fund. Therefore, the average unit cost will always be less than the average sale price per unit irrespective of the market being rising, falling or fluctuating. By investing a fixed amount of Rupees at regular intervals, investors can take advantage of the benefits of Rupee Cost Averaging, at the same time, saving a fixed amount each month.

The unitholder may avail Systematic Investment Plan (SIP) by completing the application form and submitting the same at any of the ISC / Collection Centres. Unitholders may change the amount and / or tenure (but not below the specified minimum) by giving written notice to the AMC/Registrar. An SIP may be terminated on appropriate written notice by the unitholder of the fund, and it may terminate automatically if transmission is initiated for that folio (notification of death) or incapacity of the unit holder.

The Investment Manager may change rules relating to the facility from time to time.

Highlights:

- Franklin Templeton Mutual Fund will accept a minimum of 12 cheques ('cheques' include ECS/Direct Debit instructions or any other mode of payment accepted by the AMC from time to time) each of Rs.500/- or more or a minimum of 6 cheques each of Rs.1,000/- or more from any SIP investor.
- All the SIP cheques (except the first one) must be uniformly dated i.e. either the 1st, 7th, 10th, 20th or 25th of a month. Investors can invest at Monthly or Quarterly intervals by providing post-dated cheques. All cheques should be for the same amount.
- Only one instalment per month/quarter is allowed under one SIP registration. e.g., if for a monthly SIP, the first instalment is in the month July, say 2nd July, then the second instalment should be in August.
- To effect the Direct debit/ NACH, investors must provide a cancelled cheque or copy thereof for the same account from which the Direct Debit/ NACH is to be done. Please note that ECS facility is discontinued w.e.f. May 31, 2016.
- Load: For all SIP purchase transactions during ongoing sale, the load structure as applicable for normal purchases shall be applicable.

Terms & Conditions applicable for all SIP:

- In case the specified date of SIP instalment is a non-business day for the scheme, the SIP will be processed on the following business day for that scheme.
- If during the currency of a SIP, the unitholder changes the plan or option in which he/she had invested, the same would be treated as termination of existing SIP and re-registration of a new SIP and all the terms and conditions of the SIP such as minimum term/amount etc. shall apply in both plans/options.

- The AMC reserves the right to discontinue the SIP in case of cheque return or rejection of ECS/Direct Debit/ NACH by the bank for any reason, and debit the return / rejection charges to the investors' account.
- Franklin Templeton Investments will not be responsible for any delay/non-processing of ECS/Direct Debit/ NACH transaction where it is attributable to any incorrect/incomplete information provided by the investor.
- Franklin Templeton Investments shall not be responsible and liable for any damages/compensation for any loss, damage etc., incurred by the investor. The investor assumes the entire risk of using the ECS/Direct Debit/ NACH facility and takes full responsibility for the same.
- Investor will not hold Franklin Templeton Investments and its service providers responsible if the transaction is delayed or not effected by the investor Bank or if debited in advance or after the specific SIP date due to various reasons.
- The Trustee/AMC reserves the right to modify or discontinue the SIP facility at any time in future on a prospective basis.

It is clarified that the load applicable for a SIP shall be the load prevailing on the date of registration.

Here is an illustration using hypothetical figures to show how a Systematic Investment Plan can benefit an investor. Let us assume that Mr. ABC would like to invest Rs.1,000/- as a quarterly investment for a period of four quarters, i.e. a total of Rs.4,000/-.

Quarter	Amount Invested (Rs.)	Public Offering Price (POP) (Rs.)	No. of Units purchased
1	1000	12.0000	83.333
2	1000	15.0000	66.667
3	1000	9.0000	111.111
4	1000	12.0000	83.333
TOTAL	4000	48.0000	344.444

Average price (per unit) per quarter (quarters) = Rs.12.0000 (i.e. Rs. 48/4).

Average cost per unit = Rs.11.6129 (i.e. Rs. 4000/344.444 units).

As can be seen from the example above, the average cost per unit is always lower than the average market price per unit, irrespective of a rise, fall or fluctuations in the market. A greater number of units were purchased when the per-unit cost was low; fewer units were purchased when the per-unit cost was high. Thus, Mr. ABC automatically gains without having to monitor prices (NAV) on a day-to-day basis.

However, an investor should note that the market value of the Scheme's units is subject to fluctuations.

Before undertaking any plan for Systematic Investment, the investor should keep in mind that such a program does not assure a profit or protect against a loss.

Systematic Investment Plan (SIP) Variants facility

Segregation of mutual fund schemes

SEBI has, vide circular SEBI/HO/IMD/DF2/CIR/P/2018/160 dated December 28, 2018, permitted creation of segregated portfolio of debt and money market instruments by Mutual Fund schemes. As per the SEBI circular, all the existing unit holders in the affected scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio. Accordingly, on segregation, the unit holders hold same number of units in two schemes –the main scheme and segregated scheme.

In order to rationalize the tax provisions with SEBI regulations, FA 2020 has made following amendments to the provisions of the Act:

Explanation 1 to Section 2(42A) of the Act relating to the period of holding has been amended to provide that the period of holding of the units of the segregated scheme shall include the period for which the units in the main scheme were held by the assessee.

Similarly, a new sub-section (2AG) is inserted in section 49 of the Act to provide that the cost of acquisition of a unit or units in the segregated portfolio shall be the amount which bears to the cost of acquisition of a unit or units held by the assessee in the total portfolio, the same proportion as the net asset value of the asset transferred to the segregated portfolio bears to the net asset value of the total portfolio immediately before the segregation of portfolios.

Also, another sub-section (2AH) in the said section is inserted to provide that the cost of the acquisition of the original units held by the unit holder in the main portfolio shall be deemed to have been reduced by the amount so arrived at under sub-section (2AG).

Tax Deduction at Source (TDS) in respect of capital gains:

Schemes other than equity oriented fund:

All the above non-resident investors may also claim the tax treaty benefits available, if any.

As per provisions of section 206AA of the Act, the Mutual Fund would be obliged to withhold tax at penal rates of TDS in case of payments to investors who have not furnished their PAN to the Mutual Fund. The penal rate of TDS is 20% or any higher rate of TDS, as may be applicable, plus applicable surcharge and health and education cess.

The Finance Act 2016 has amended section 206AA of the Act to provide that the provisions section 206AA shall not apply to non-residents in respect of payment of interest on long-term bonds as referred to in section 194LC and any other payment subject to such conditions as may be prescribed.

The CBDT, vide its notification dated 24 June 2016, has clarified that the provisions of section 206AA shall not apply to non-residents in respect of payment on transfer of capital assets provided the non-residents provide the following information to the payer of such income:

COMPUTATION OF NAV

The Net Asset Value (NAV) is the value of a Unit and is computed as shown below:

NAV = (Rs. Per unit)	$\frac{\text{Market Value of the scheme's investments + other assets (including accrued interest) - all liabilities except unit capital \& reserves}}{\text{Number of units outstanding at the end of the day}}$
---------------------------------------	--

For example, if the market value of securities of a mutual fund scheme is INR 200 lakh and the mutual fund has issued 10 lakh units of INR 10 each to the investors, then the NAV per unit of the fund is INR 20 (i.e. 200 lakh/10 lakh).

The NAV will be normally computed for all Business Days of the Scheme and will be calculated to four decimals using standard rounding criteria.

The valuation of the investment in the Units of the underlying funds (other than Gold ETF) will be based on the NAV of the underlying fund on the date of the valuation. Gold ETF, being traded on stock exchange, will be marked to market.

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time. For the detailed Valuation Policy and the accounting policy of the AMC, please refer the Statement of Additional Information.
